Microgravity studies topic of live interview from Discovery Monday

As Discovery's crew begins their fourth day on orbit, Payload Specialist John Glenn, Commander Curtis Brown and Mission Specialist Pedro Duque will be interviewed on NASA TV at 10 a.m. CST Monday. Glenn and Brown will be interviewed again Monday at 5 p.m. Glenn is expected to talk about his participation in microgravity research studies that may lead to development of new technologies resulting in better medical treatments for cancer, diabetes, heart disease and bone implants. During the STS-95 mission, the crew will conduct 54 Marshall-managed experiments.

Open Season Health Fair set for Thursday in Bldg. 4203

The 1999 Federal Employees Health Benefits Open Season Health Fair will be held from 9 a.m.-3 p.m. Thursday in Bldg. 4203, room 1201. The open season begins Monday, Nov. 9, and continues through Monday, Dec. 14. Comparison charts and brochures will be available Nov. 9 from the employees' Administrative Office.
